

Medicines In My Home

Middle School Medication Safety Program

Children begin to self-medicate as early as 11.

Help kids learn the importance of reading the Drug Facts label, talking with a parent or guardian, and responsible medication use with the Middle School Medication Safety Kit.

Housed by local Community Prevention Coalitions, the FDA's Medicines In My Home Kit includes:

- PowerPoint presentations
- Classroom lesson materials
- Supplemental materials and assessment tools

To learn more about the Medicines In My Home Kit and other prevention programs, visit www.nnepc.org and click on "New Hampshire Community Partners" or contact Melissa Heinen at heinem@mmc.org or 207-232-9832.

POISON
Help
1-800-222-1222

The logo for Poison Help, featuring the word "POISON" in black, "Help" in a large, bold, black font, and a red pill bottle with a white skull and crossbones symbol on it. Below the logo is the phone number 1-800-222-1222.
